Dept planted 30,000 trees in Negri since January

SEREMBAN: The Negri Sembilan Forestry Department has planted 30,000 trees throughout the state since the start of the year, state director Saleh Awaludin said. He said the effort was part of the 100-million tree planting campaign, and done with the assistance of corporations, educational institutes, village committees and government agencies. He said the tree planting campaign would increase awareness of the importance of trees and conserve green areas in the state. "This campaign has received encouraging response. We are convinced even more people will involve themselves in tree planting as they will be rewarded with points that can be used to redeem items," he said after a tree-planting programme in Kampung Siliau Hilir on Sunday.
